

QUARRYING INDUSTRY

perma lubrication systems in operation

The Expert in Lubrication Solutions

perma

Challenges

The quarrying industry is very demanding for both workers and machines. Spread out equipment, insufficient staff, tough ambient conditions and cost pressure continuously challenge quarry operators and employees. Automatic lubrication with perma lubrication systems increases workplace safety and equipment availability enormously.

- Hard-to-reach and dangerous lubrication points
- Extreme operating conditions (sludge, dust, dirt, temperature changes and vibrations)
- High personnel costs from spread out and complex equipment

Lubrication points

1 | RAW MATERIAL PROCESSING

- **Crushing**
Jaw, cone & roll crushers
- **Transporting**
Conveyors

2 | FINAL PROCESSING

- **Screening**
Grit & sand screens
- **Cleaning & sorting**
Conveyors
- **Dust removal**
Dedusting equipment, blowers & fans
- **Transporting**
Conveyors

3 | STORAGE & PACKING

- **Packing**
Conveyors
- **Filling**
Silo discharge

Lubrication of pillow block bearing on a conveyor

Lubrication of pillow block bearing on grit and sand screen

Remote lubrication on a conveyor

Lubrication of the bearing block on a drive disc

Lubrication of pillow block bearing on conveyor

Lubrication of bearing and seal of a blower / fan

Solutions

The selection of the ideal lubrication solution requires the consideration of various factors, including the specific type of application, operating speed and load of the machine, and the ambient temperature. Below are some proposed solutions:

Direct mounting | e.g. with perma FLEX

- Easy, quick mounting
- For lubrication points with little vibration | shocks
- For easy-to-reach and safe lubrication points

Remote mounting | e.g. with perma STAR VARIO

- For lubrication points with strong vibration | shocks (isolation of lubrication system)
- When workers' safety is at risk: Mounting in safe areas
- For hard-to-reach lubrication points

perma SERVICES

You have questions about our products or need assistance with measurement, system installation and maintenance of your equipment? The perma Services team has answers and is happy to assist!

Visit the perma website for an overview of our offerings.

EASY. SMART. CONNECTED.

Create your own network

- Current overview of all lubrication points
- Coordination of upcoming maintenance work
- Reminders for pending exchanges
- Central management of lubrication points in the web application
- Recording of all on site maintenance and exchange tasks via the app
