

# perma FUTURA - Quick Start Guide

## 1. Predefine installation / Select lubricant, discharge period + connecting parts

### Examples: Bearing lubrication

Direct mounting

Remote mounting → for lube-points with vibration, limited mounting space, high temperature

**Select a suitable lubricant for perma FUTURA**  
→ e. g. perma MULTI LC 150-1 (SF01)

**Select activator screw**  
→ e. g. with perma SELECT Software

(refer to our product catalog for details)

## 2. Prepare lube-point

Clean lube-point

Remove grease fitting

Add reducer and tubes (if required)

For direct mounting:  
Prefill lube-point and any connecting parts  
(use the same grease that is contained in the lubrication system)

For remote mounting:  
Prefill lube-point and any grease lines / connections  
(use the same grease that is contained in the lubrication system)

Pressure check: Lube-point / all connecting parts  
(refer to perma FUTURA installation guide for details)

## 3. Activation / Installation of lubrication system
